

- Please sign this petition in support of opening up our primaries in Florida
- In Florida and 17 states, independents cannot vote in the primaries.
  - Close to 2.1 million Floridians are registered as independent/unaffiliated voters.
  - Polls show independents making up 42% of the electorate nationwide.
  - Floridians are being shut out of local and national primary elections; closed primaries disenfranchise Floridians.

**I support Open Primaries in Florida for Independent/non-affiliated voters.**
